vivotempo

Working time, annual leave and sick leave.
Simply in one place.

WHAT VIVOTEMPO TAKES CARE OF

Four areas. One system.

Terminal

Clock in at the wall with a single tap. Breaks applied by law, automatically.

Working time

See live who is working. Monthly figures and payroll export ready.

Annual leave

Requested in a minute, approved with one click.

Sick leave

Reported without paper, discreet towards the team.

TERMINAL

Clock in at the wall. In seconds.

One tap is enough
Start work, break, finish: large buttons, no menus.

Any tablet becomes a terminal
Full screen as an app, no special device needed.

No training needed
Everyone sees their day at once: start, breaks, hours.

TERMINAL

Five ways to sign in

Each company chooses what suits it.

Name

Tap it in the list

PIN

4 to 6 digits

NFC card

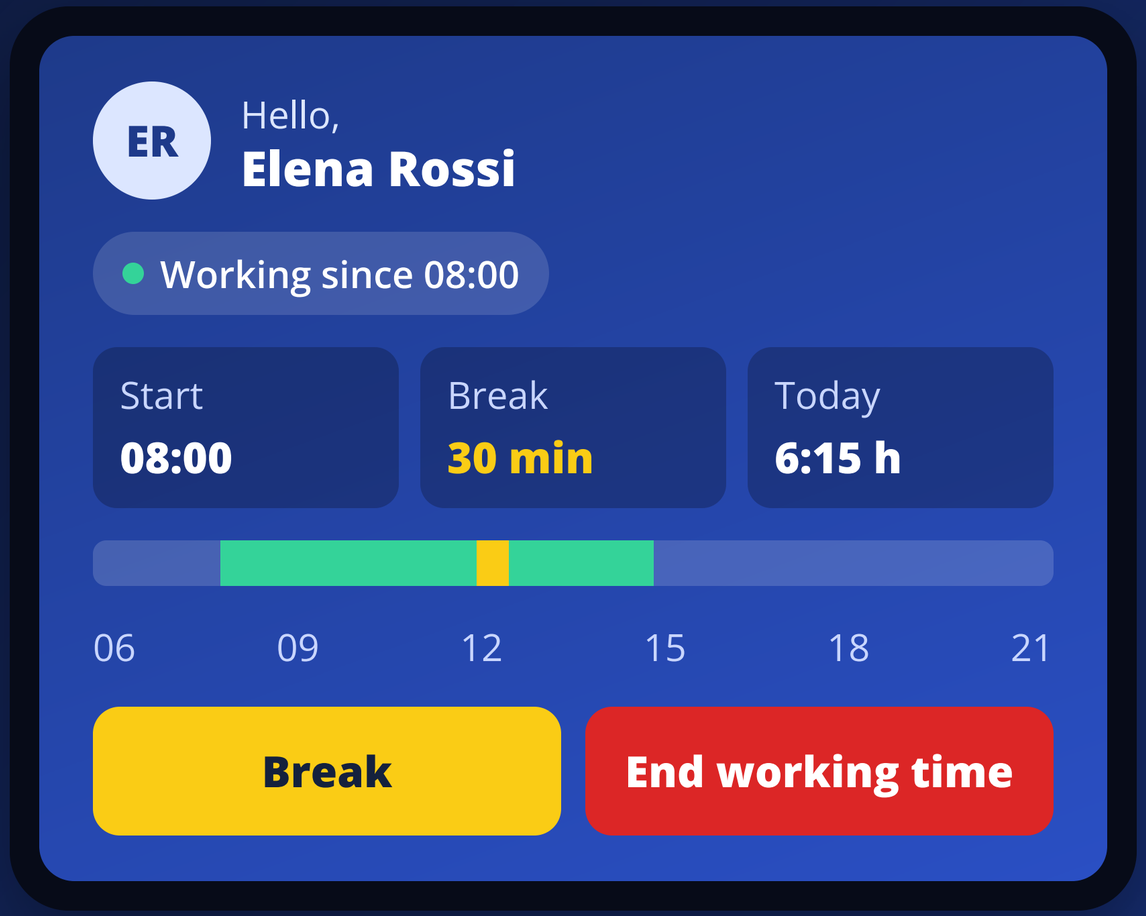

Hold up a card or tag

QR code

Hold the code to the camera

Face

Recognition if wanted

TERMINAL

The whole day at a glance

Start, break, hours
Everything for today, without searching.

The day as a bar
Work in green, breaks in yellow.

Finish with one tap
Then the terminal shows the summary of the day.

TERMINAL

Breaks by law. Automatic and fair.

30 min after 6 h, 45 min after 9 h
If a break is missing, vivotempo deducts the minimum break.

Sliding instead of flat
Never more deducted than needed.

A night shift stays one shift
Even with a break after midnight.

Example: 6:10 h without a break

Flat rate
30 min deducted

Sliding, with vivotempo
10 min deducted

Exactly 6 h of work remain, as the law requires.

TERMINAL

Reliable, even when something goes wrong

Keep clocking without internet

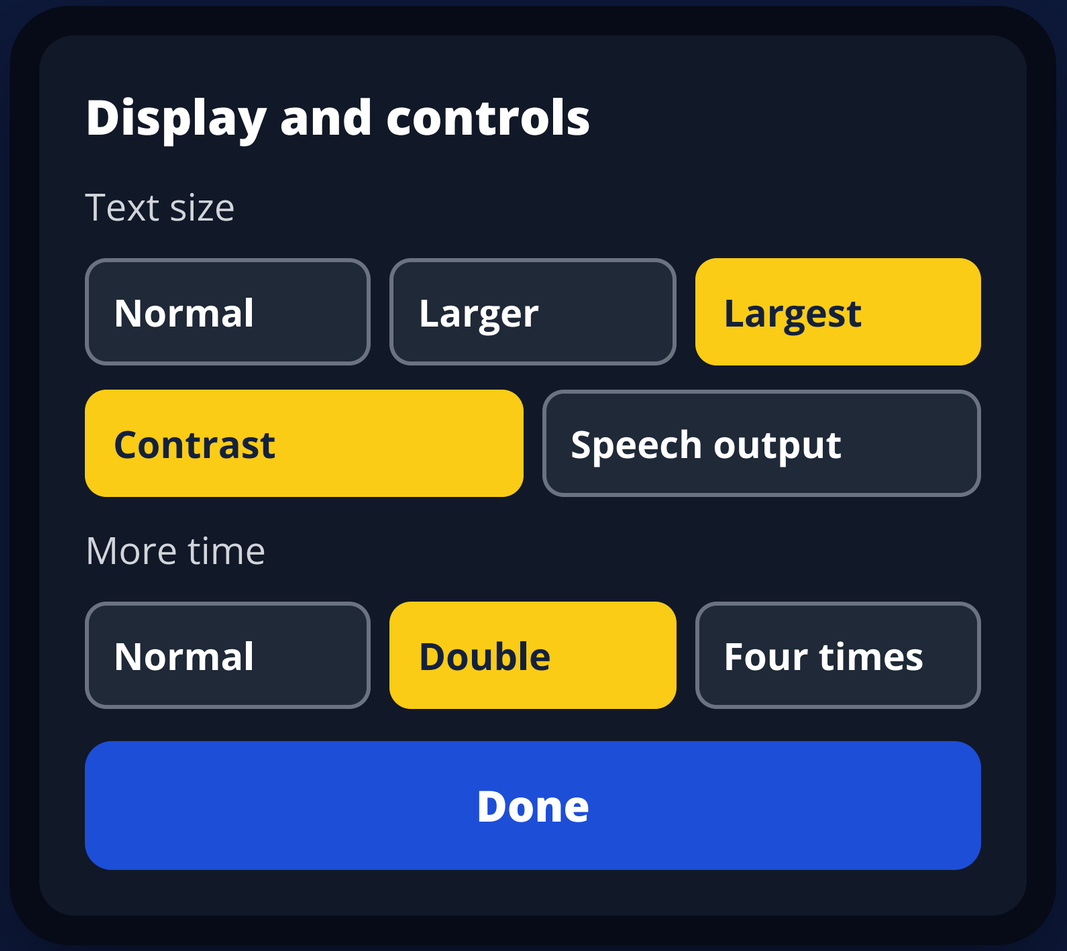

The terminal remembers every entry and sends it as soon as it is back online.

Forgot to clock?

Correct the time right at the terminal if the company allows it. With a reason and a complete history.

A forgotten finish gets noticed

If a time runs unusually long, the terminal asks instead of counting on silently.

TERMINAL

Usable for everyone

Text up to 200 %

One tap at the bottom left, even before signing in.

Speech output

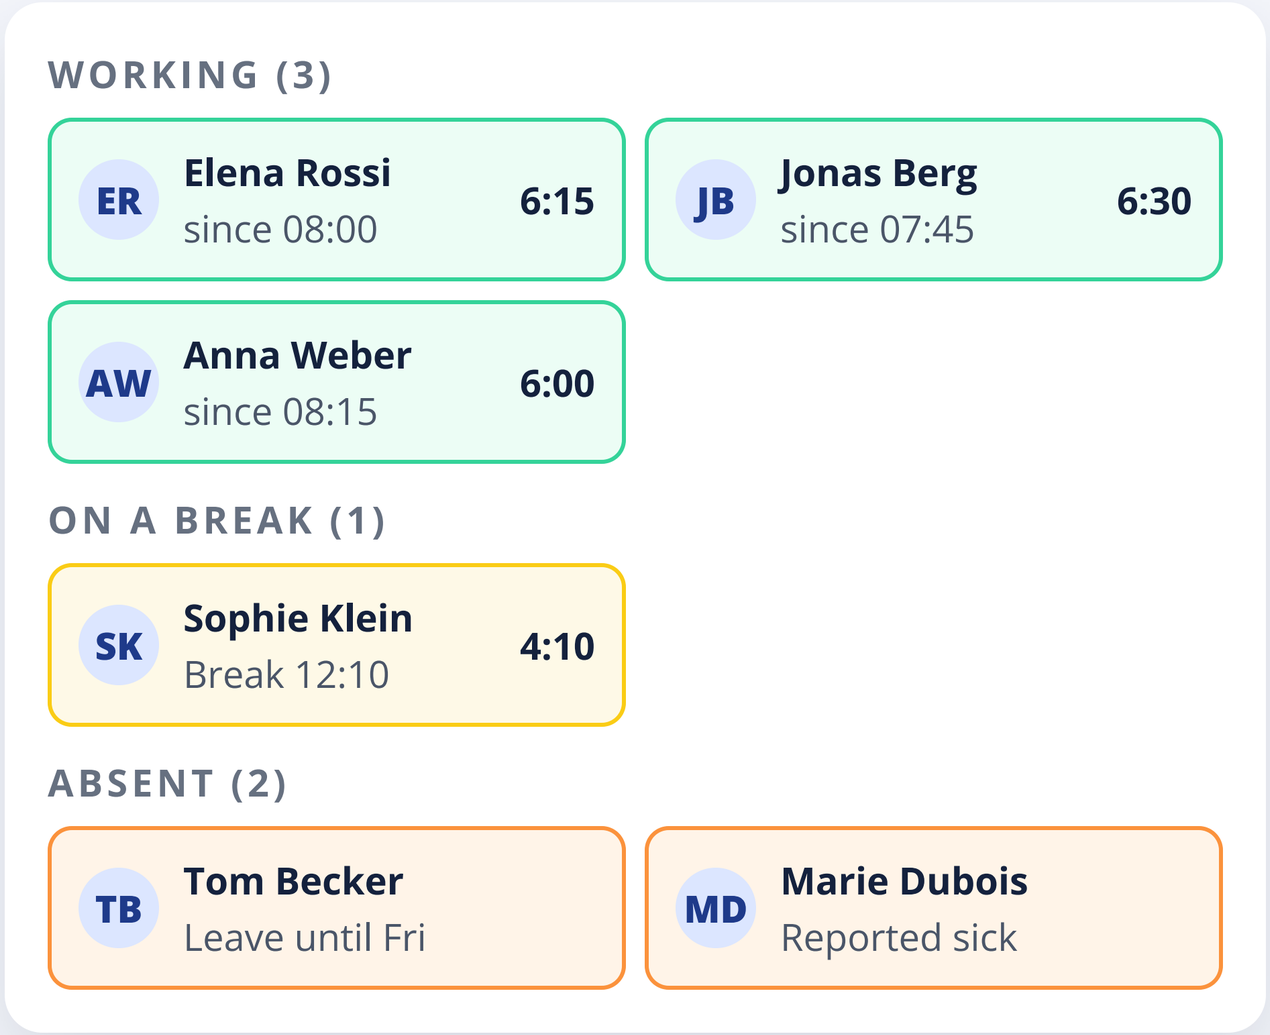

The terminal announces what happens.

More time

Twice or four times as long before the screen goes back.

FOR ADMINS AND HR

Who is working right now? One glance is enough.

MANAGEMENT

See live who is in

Updates by itself

No reloading, all day long.

Since when, how long

Start and hours of today for each person.

Absences included

Annual leave and sickness appear in the same overview.

MANAGEMENT

The month is done before it ends

Target, actual and balance

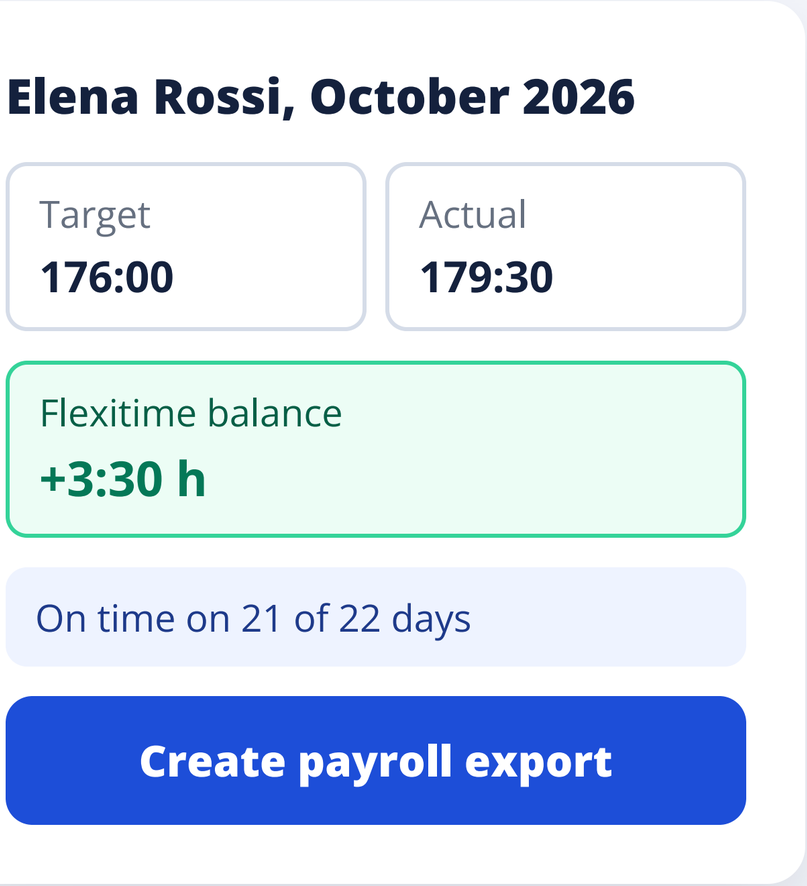

vivotempo calculates flexitime and overtime itself.

Punctuality judged fairly

Start windows per person or company, also for shifts.

Payroll export and locking

For DATEV and Lexware. Closed months stay as they are.

ON THE ROAD AND AT HOME

Clock in on your phone too

In the browser, no installation
Start and break on a phone or a PC.

The same rules everywhere
Breaks, start windows and corrections as at the terminal.

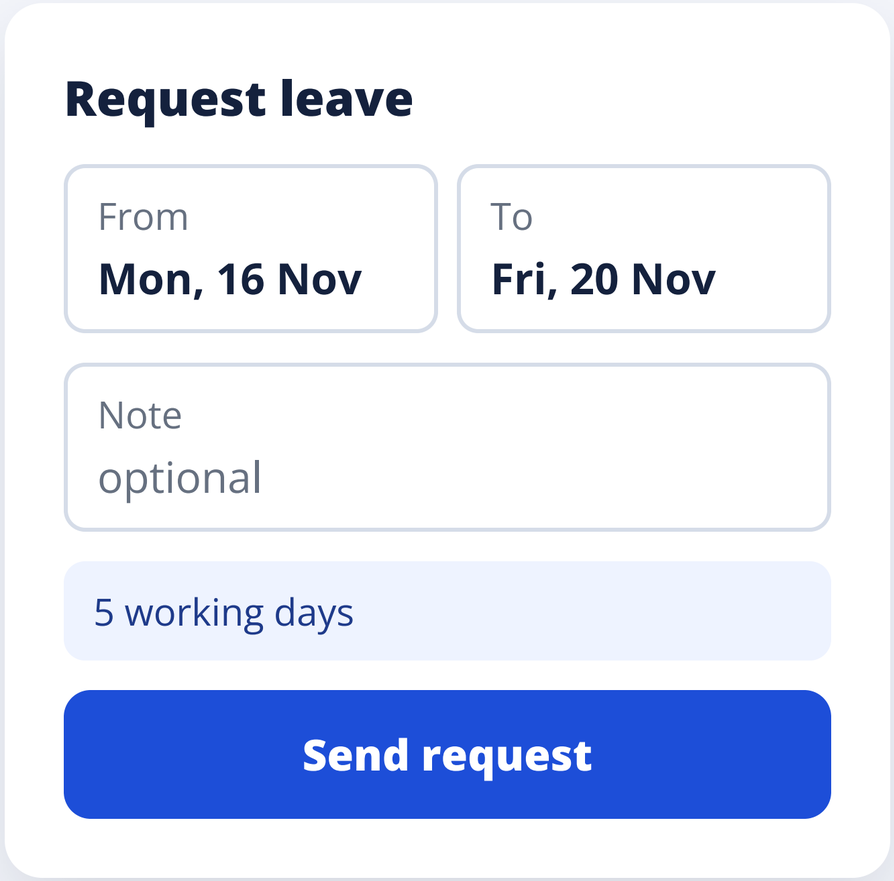

Your own account in view
Everyone sees their hours and remaining leave.

ANNUAL LEAVE

Requested in a minute. Approved with one click.

No paper slips, no spreadsheets, no chasing.

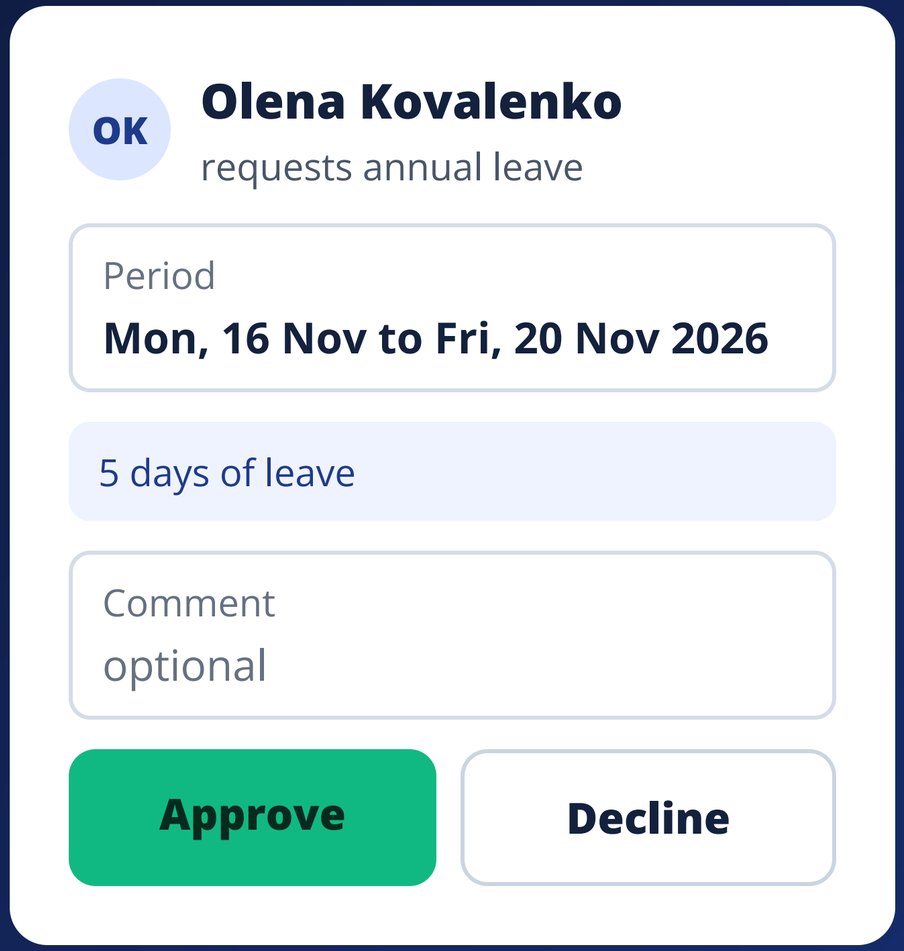

ANNUAL LEAVE

One request, two dates

vivotempo counts the days
Weekends and public holidays of the location do not count.

Half days too
For the afternoon at the doctor or the short Friday.

Remaining leave always visible
Everyone sees their balance, at any time.

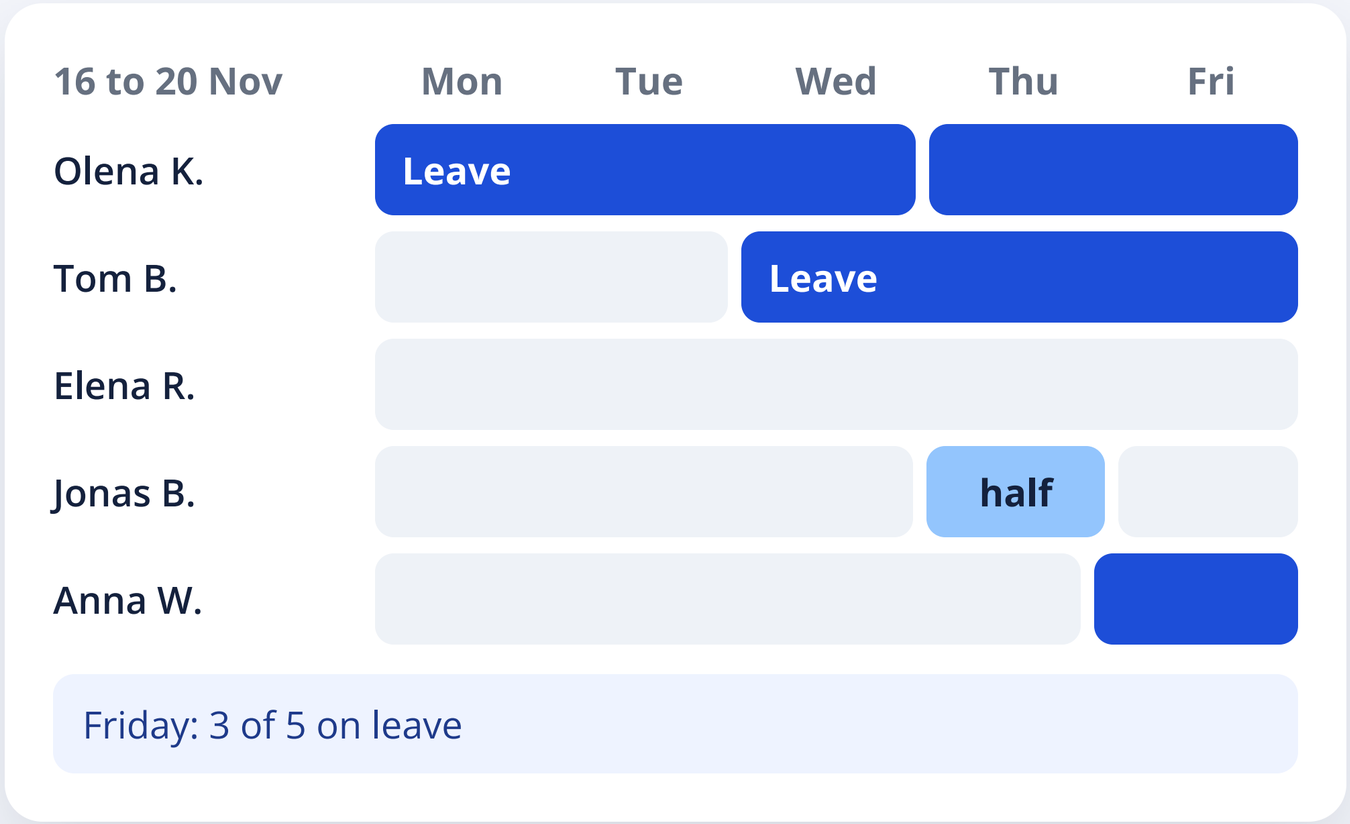

ANNUAL LEAVE

Decide with one click

Notified at once
Team leads and HR receive an email and a notification.

Comment and internal note
For questions, without everyone reading along.

Clear feedback
The person learns the decision right away.

TEAM CALENDAR

Who is away when?

The team at a glance

Choose people freely.

Spot bottlenecks early

Even before the next request is approved.

Public holidays included

Matching the location.

LEAVE ACCOUNT

Remaining leave, always calculated right

30
days entitlement

13
days taken

17
days left

Carry-over into the new year with the year-end closing. Sick during leave? The days come back.

SICK LEAVE

Report sick, without paperwork

Reported from the sofa
In the portal on a phone, also “until further notice”.

Upload a sick note or tick eAU
The certificate is stored safely with the report.

HR knows at once
By email and notification.

SICK LEAVE

Discreet and fair

The team only sees “Absent”

Reasons stay with HR and management.

Sick during leave does not count as leave

Certified sick days are credited back, under § 9 BUrlG.

Health bonus if wanted

A bonus for few days off sick, calculated automatically and pro rata.

TRUST

Your data stays in Europe

Servers in Paris

Hosted in the EU, under the GDPR.

Two-factor and passkeys

By app, code by email or passkey.

Roles and rights

Employees, team leads, HR and admins only see what they need.

DPA online

Conclude the data processing agreement right in your account.

FOR EVERY TEAM

From the small trade business to the large company

7
languages in the portal

2,000+
employees in the load test

5
ways to sign in at the terminal

German, English, French, Italian, Latvian, Slovenian, Ukrainian.

vivotempo

Less admin.
More time for the team.
